Project Location *

If possible, what is the Geolocation of the Project Site? (In case of multiple sites, then choose one or in the middle.)

How to get the coordinates of a place:

- On your computer, open Google Maps.
- Right-click the place or area on the map.
- This will open a pop-up window. You can find your latitude and longitude in decimal format at the top.
- To copy the coordinates automatically, left click on the latitude and longitude.
- For the NASF office these are: 52.08310, 5.08555.
- The answer to this question is then these coordinates or series of digits.

Should you fail to get the coordinates, then you can leave it empty.
